### ABOUT ME

Hi! I'm Basia, a very curious and positive person who's always up for learning something new. Whether it's coding, 3D graphics, design, user research or Japanese, I bring energy and a love for collaboration to everything I do. I've taught myself most of the skills I know because I genuinely enjoy the challenge of figuring things out. People and projects both keep me inspired, and I'm always excited to share ideas and create something awesome together!

### EDUCATION

03

2018-2021

#### Adam Mickiewicz's High School in Gdańsk

Math-Geography

My High School put a lot of emphasis on **public speaking** and debating, which I feel are the main skills I gained there.

2021-2023

#### Mikołaj Kopernik's University in Poznań

Ethnolinguistics With Japanese

Despite dropping out, I still really value the **cultural knowledge** I got out of my course. I find the topic of the role language plays in cultures very interesting and to this day I keep coming back to many ideas that I learned about because of this course.

2023-Present

#### Business Academy Aarhus

Multimedia Design - International Class

On top of many hard skills I really value the **problem-oriented** way of thinking and **user research** skills this program is teaching me.

I also really love that I'm gaining a lot of experience working in an **international environment** and I'm glad that the course puts a lot of emphasis on **intercultural communication** skills.

### WORK EXPERIENCES

06

2019 - 2020

#### Event Staff Member at PamEvents, Gdańsk

I helped plan, organise and execute events especially catered to children.

This job helped me develop good **organisational skills** as they played an increasingly key role in my work as I got more responsibilities.

With time I gathered valuable experiences with **working in a team**, **active listening** which is key to effective communication in big projects.

2021

#### Waitress at Weranda restaurant at Impresja Hotel, Gdańsk

I worked in the hotel restaurant, helped during breakfasts, as well as as a solo evening waitress. I also helped train new staff members.

I especially value this position for giving me an opportunity to meet a lot of people from all over the world.

On top of that it gave me a lot of experience dealing with **stressful situations** requiring a careful approach as I sometimes had to deal with high-profile guests with sensitive issues.

2022 - 2023

#### Event Staff Member at M&T Group's large scale events, Poznań

I helped maintain **order** and **good organisation** during large scale events like concerts and sport events.

On top of many other skills this job helped me learn to work under a lot of **time pressure** and deal with time-sensitive matters, as well as stay **patient**.

2023

#### Field Surveyor at Market Research World Anna Sojka, Gdańsk

I worked as a door to door surveyor for a city issued surveys.

This job taught me a lot of **communication skills**. I had to be professional yet friendly and open. Non-judgmental and easy to talk to.

It also taught me a lot of patience, as well as dealing with rejection.

2023 - Present

#### Cleaning Assistant at BioClean, Aarhus

At this job my main task is cleaning an office for an insurance company. I also trained new staff members.

I have to communicate effectively with my team as well as organise my time well.
